Important Facts About Insurance Benefits

Preventive and Screening Services

Our office makes every effort to follow the current coding practices for reporting medical services as directed by Federal law and the American Medical Association. These regulations can be quite complicated and generate many questions from our patients. The purpose of this handout is to clear up any confusion caused by these complicated rules regarding the billing of Preventive and Screening Services.

The Well Woman or Preventive Medicine charges for services provided by our practice includes:

- The Preventive examination includes a complete history and examination in addition to a breast and pelvic exam. There will be questions about other medical conditions and counseling on risk factors such as smoking, diet and exercise, stress, self-breast exams, menopausal symptoms and hormone replacement therapy.
- Conveyance of Pap Smear specimen to the laboratory is included
- Appropriate laboratory and diagnostic tests, such as a mammogram and DEXA may be ordered and will be billed by those entities.

As outlined above, discussions about problems and conditions you are being treated for that are under control are considered an integral part of the Well Woman exam and cannot be billed as a "Sick Visit" under Federal Compliance Rules.

If a separate problem is identified during the course of the Well Woman or Preventive exam, we are required to submit our claims based on the documentation in the medical record of the service provided to you. This may require an additional charge to your insurance company resulting in another co-payment.

Our doctors cannot comply with any requests to improperly alter the medical records for the purpose of obtaining payment by billing for a "Sick Visit' when no other major problems were evaluated.

You, as the patient will be responsible for all co-payments and deductibles at the time of service.

Our business office will be happy to assist you with any questions.

We thank you for choosing us to assist you with your healthcare needs. Providing high quality healthcare remains our first priority.

Respectfully,

Stefanie A. Schultis, M.D.
